ALLOCATIONS FOR EMERGENCY PROJECTS

BACKGROUND

The California Transportation Commission (Commission) by Resolution G-11, as revised by Resolution G-94, delegated to the Department of Transportation (Department) authority to allocate funds to correct certain situations caused by floods, slides, earthquakes, material failures, slipouts, unusual accidents or other similar events. This allows the Department to immediately begin corrective action in an emergency condition without waiting for the next Commission meeting to receive an allocation.

This authority is operative whenever such an event:

1. Places people or property in jeopardy.
2. Causes or threatens to cause closure of transportation access necessary for;
 - a. Emergency assistance efforts.
 - b. The effective functioning of an area's services, commerce, manufacture or agriculture.
 - c. Persons in the area to reach their homes or employment.
3. Causes either an excessive increase in transportation congestion or delay, or an excessive increase in the necessary distances traveled.

The G-11 Resolution also requires the Department to notify the Commission, at their next meeting, whenever such an emergency allocation has been made.

SUMMARY AND CONCLUSIONS

Pursuant to the authority granted by Resolution G-11, State funds totaling \$4,560,000 have been allocated for three (3) emergency construction projects on the attached list.

Project #1, In Alameda, in the median of Route 80, from 505 to Horse Creek. – Award G-11 Allocation was necessary to repair fire damage.

Project #2, Near Cambria, at 0.1 miles east of Highway. – Award G-11 Allocation was necessary for restoration to repair and remove landslide materials from Highway 46.

Project #3, Near Buelton, at 0.1 mile north of Old Coast Highway. – Award G-11 Allocation was necessary to construct a tieback retaining wall and reconstruct second northbound lane.
